Professional Summary

Computer Science and Design graduate with production-focused experience in software development and DevOps automation. Currently pursuing AI and Data Science certification while seeking an entry-level software engineer role to contribute to production systems and collaborate with development teams.

Skills

Programming Languages: Python, C, JavaScript, Java

Web & Backend: Flask, Node.js, REST APIs, HTML5, CSS3

DevOps & Cloud: Jenkins, Selenium, Docker, AWS EC2, Git

Data & ML: Pandas, TensorFlow, Keras, Seaborn

Database: MySQL, MongoDB

Soft skills: Time Management, Teamwork, Problem solving, Communication, Documentation, Presentation

Projects

Two-Tier Flask Application with Automated CI/CD Pipeline | Jan 2026 - Present

- Deployed containerized Flask-MySQL application on AWS EC2 using Docker Compose
- Automated CI/CD pipeline with Jenkins using SCM polling for 2-minute deployment cycles
- Created declarative Jenkinsfile for repository cloning, container deployment, and health

BFS Pathfinding Visualizer | Nov - Dec 2025

- Built terminal maze solver using BFS algorithm with $O(V+E)$ time complexity
- Visualized path exploration in real-time using Python curses for 35x25 grids
- Implemented queue-based traversal with visited-node tracking

Cognitive Response Training Platform | Nov - Dec 2025

- Built aim training game with Pygame featuring collision detection and real-time scoring
- Tracked accuracy, reaction time, and hit/miss metrics at 60 FPS
- Applied OOP principles for modular code structure

Nike Landing Website | May - June 2025

- Developed mobile-responsive Nike landing page using React and Tailwind CSS utility classes
- Built 8 custom sections with modern UI/UX design patterns and component reusability
- Configured Tailwind theme with custom colors, fonts, and responsive breakpoints

WhatsApp Message Automation System | July - Aug 2025

- Automated scheduled WhatsApp messaging using Twilio REST API
- Built CLI with exception handling for API and scheduling errors

Immersive VR Automotive Showroom | Sept 2023 - Jan 2024

- Created 360° VR showroom using Unity3D and XR Toolkit with vehicle customization
- Optimized 3D models in Blender using LOD and occlusion culling with spatial audio
- Scripted VR interaction mechanics and UI systems in C#

Experience

DataMites Global Training Institute, Chennai | Sept 2025 - Present

AI & Data Science Specialist (Training Program)

- Completing professional training program in machine learning algorithms, neural networks, and AI model development
- Gaining hands-on experience in computer vision, natural language processing, and time series analysis

Facein Technologies Pvt Ltd, Kochi | May 2023 - June 2023

Web Development Intern

- Built web applications using HTML5, CSS3, JavaScript, and PHP with MySQL database integration
- Collaborated with development team on code reviews and testing

Education

Bachelor of Technology in Computer Science and Design | Nov 2021 - June 2025
Viswajyothi College of Engineering and Technology, Muvattupuzha | CGPA: 7.3/10

Higher Secondary Education | June 2020 - Aug 2021
De Paul Public School, Thodupuzha | Percentage: 90.6%

Certifications

- Data analysis Fundamentals - Google (Coursera)
- Data Science (Basics) - Infosys Springboard
- Introduction to AWS - Skillsoft
- SQL (Advanced) - HackerRank
- Basics of Python - Infosys Springboard

Leadership and Achievements

- **IEEE Leadership Roles:** Society Chair (2024) - Led community technology projects and cross-functional teams; Treasurer (2023) - Managed budget and financial operations for 5+ technical events
- NSS Senior Energy Cell Coordinator (2023): Led technical sessions and energy awareness campaigns
- Led tech-focused treasure hunt as **head coordinator** at Bodhi 2k24 national tech fest
- Secured 2nd prize, Meetmind App Development Competition

Languages

English (Fluent), Malayalam (Native), Tamil (Conversational), Hindi (Conversational)
