PROFESSIONAL SUMMARY

Computer Science and Design graduate with a strong foundation in **Data Structures and Algorithms**. eager to contribute in collaborative software development environments, with a strong appetite for learning, designing scalable backend architectures and writing optimized, production-ready code.

EDUCATION

Viswajyothi College of Engineering and Technology <i>B.Tech in Computer Science and Design (CGPA: 7.3/10)</i>	Muvattupuzha, India Nov 2021 – Jun 2025
---	--

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6+), C, SQL, HTML5, CSS3
Web & Frameworks: React.js, Flask, Tailwind CSS, REST APIs
Tools & Infrastructure: Git, GitHub, AWS (S3, EC2), CI/CD basics, Docker
Core Concepts: Data Structures & Algorithms (DSA), OOP, Relational Databases, System Design, SDLC, Agile

EXPERIENCE

AI & Data Science Trainee <i>DataMites Global Training Institute</i>	Sep 2025 – Present Chennai, India
- Applied analytical skills to implement 6+ machine learning algorithms on datasets, gaining hands-on experience in data cleaning, feature engineering, and model building. - Practiced core visualization concepts, creating 10+ analytical dashboards with Matplotlib, Seaborn, and Power BI to deliver high-quality data insights.	
Web Development Intern <i>Facein Technologies Pvt Ltd</i>	May 2023 – Jun 2023 Kochi, India
- Engineered backend logic and integrated RESTful APIs for 3+ full-stack applications, writing clean, efficient code to utilize MySQL for structured data management and reduce API latency by 20%. - Troubleshooted and resolved data accuracy and system performance issues, maintaining 80% unit test coverage to ensure robust application delivery.	

PROJECTS

Expense Tracker API <i>Full-Stack, Python, Flask, SQLite, Chart.js</i> GitHub	Jan 2026 – Feb 2026
Architected a backend system with 5+ REST API endpoints and integrated SQLite database for a dynamic frontend, securely generating real-time visual analytics.	
Diabetes Diagnostic Model <i>Python, Scikit-learn, System Integration</i> GitHub	Dec 2025 – Jan 2026
Developed an end-to-end inference workflow, wrapping a 77% accurate SVM classifier in a Streamlit web interface.	
BFS Pathfinding Visualizer <i>DSA, Python, Algorithms</i> GitHub	Nov 2025 – Dec 2025
Demonstrated strong algorithms foundation by programming an optimized graph traversal (Breadth-First Search) on 2,500-node terminal grid with strict memory management.	
WhatsApp Automation Service <i>Backend, Python, REST APIs, OOP</i> GitHub	Jul 2025 – Aug 2025
Designed, developed and tested an automated background scheduling system leveraging external webhooks and Object-Oriented design principles.	
Immersive VR Showroom <i>C#, System Optimization</i> GitHub	Sep 2023 – Jan 2024
Optimized 3D rendering pipelines using Level of Detail (LOD) systems, improving hardware frame rates by 30% to meet strict technical performance constraints.	

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Google Data Analysis Fundamentals, HackerRank SQL (Advanced), Infosys Python & Data Science, Skillsoft Introduction to AWS.
Leadership & Achievements: IEEE SIGHT Chair (2024), 2nd Prize in Meetmind App Dev Competition
